PROFILE

Perfectly designed by METCHRO and now available for Hino Conventional Models. Our designers came up with a unique grip pattern

that is much sturdier and nicer-looking. Made with 430 Grade Stainless Steel this new step improves the look of the truck while allowing your satisfaction reach new steps. 100% made in Canada, this unique part is now available to all North American Hino Dealers.

NEW GRIP

The idea was to simplify the fabrication process and make sure that the new grip was strong enough for the safety of both drivers and passengers.

HIGH NICE-LOOKING ACCESSORY

All truck accessories developed must meet our true nature. They must shine on you. Made with 430 Grade Stainless Steel, this product prevents ice and dirt accumulation.

EASY TO INSTALL

Remove the old one and install the new one in no time. It's as simple as that.
